Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 06 June 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Information Disclosure Statement

The information disclosure statement filed 02/28/05 fails in part to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered with respect to the German reference 10209093 cited thereon.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 25-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Jorgensen et al. (U.S. Patent No. 6,003,624).

Jorgensen et al. disclose a transporter comprising a support platform (20); a plurality of ground contacting elements including two laterally disposed wheels rotatable around an axis (14); a pivot element (16) capable of tilting in the fore-aft plane and pivotally coupled to the axis (compare Figures 1-5; 16 is pivotably coupled at 18);

Art Unit: 3611

wherein the pivot element is flexibly coupled to the support platform (through a linkage as shown in Figure 4); a user interface (36) for causing the tilt of the pivot element (col. 5, lines -17-28); a sensor module for generating a signal indicative of the tilt of the pivot element (col. 5, lines 17-28; col. 2, lines 34-40); a motorized drive arrangement (32, 34) and a controller commanding the motorized drive based on the tilt (col. 5, lines 17-28).

Allowable Subject Matter

Claims 29 and 30 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed 06/06/05 have been fully considered but they are not persuasive.

The sole argument presented is that Jorgensen et al. do not disclose a vehicle that is statically stable with respect to tipping in the fore-aft and lateral planes. Figure 1 of Jorgensen et al. shows just such a vehicle so this argument is false.

Since application no. 10/618,082 is currently abandoned and claims 31-33 of the present application are cancelled, the double-patenting rejection of the last office action has been withdrawn.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
